REGIONAL FOCUS

Driving Regional Financial Performance and Compliance through EBIS Focus Areas

LOB Management

Focus on monitoring and accelerating the progress of inputs to Billing Complete status by ensuring document readiness, data accuracy, and timely billing closure.

Unflag Cash In

Drive corrective and progressive corrections to accelerate cash-in realization and maintain healthy cash flow performance

EDK PSAK & Correction Issues

Ensure compliance with PSAK standards through accurate correction of transactions, validation of financial data, and consistent reporting integrity

Vendor Payment Issues

Accelerate vendor payment processing by resolving administrative and approval delays to maintain strong relationships with business partners

Overpayment & Late BC

Identify and resolve overpayment and late Billing Complete cases to ensure accurate revenue recognition

AR Management

Strengthen AR monitoring and collection execution to accelerate payment realization, reduce aging, and prevent potential bad debts

SUSTAIN

CRITICAL CONTROL EBIS

Strengthening Process Controls Across the End-to-End EBIS Flow

Governance, Risk & Compliance

Driving Regional Transformation through Governance Excellence

Main Objective

To ensure effective governance, risk control, and compliance implementation across all regional units in support of business targets.

1. Governance

Define clear roles, authority, and escalation through a **governance framework**. Track KPIs, budgets, and compliance, and hold quarterly reviews to stay aligned with strategy.

2. Risk Management

Create a **risk register** for all segments, **set risk appetite and tolerance**, and embed **KRIs**. Conduct **quarterly sessions** to strengthen risk awareness and response.

3. Compliance

Run regular **self-assessments** in key functions, maintain a **compliance matrix** for audit tracking, and assign **compliance champions** in each Witel aligned with Audit teams.

4. Monitoring & Reporting

Operate an **integrated GRC reports** showing governance, risk, and compliance scores. Report monthly and **drive a continuous improvement** loop from findings to full resolution.

Main Objective

Enhance employee competence, behavior, and engagement to effectively execute regional strategies in alignment with company culture.

1. Capability & Skill Development

Map competencies by function and create **Individual Development Plans** based on role needs. Prioritize training in **digital skills**, **business acumen**, and **governance awareness** to strengthen business capabilities

2. Leadership & Talent Pipeline

Build a **regional talent pool** for supervisory and managerial levels. Implement **cross-Witel coaching and mentoring**, and apply **succession planning** for critical roles to ensure leadership continuity.

3. Culture & Engagement

Promote **AKHLAK** and **customer-centric culture** through regular campaigns and role modeling. Conduct **employee engagement surveys**. Establish communities of practice across Witel to foster collaboration and learning.

4. Performance & Recognition

Link **individual KPIs** with training outcomes to drive performance improvement. Apply a **recognition system** based on meaningful contributions.

- Situation -

THE FALSE EUPHORIA

“What is happening? What was that?
Stop, we already win.”

- Shujiro Saga *in confusion*

- Behavior (don't) -

THE INTEGRITY

“I’ll take any price for this sword.”

- Shujiro Saga *in desperation*

Filosofi yang salah:

Singkirkan dulu pedangnya (integritas), yang penting kita makan (dapat revenue)

Lesson:

Bagi seorang Samurai, kehilangan pedang berarti menyerahkan nyawanya. Ibarat GRC adalah 'Pedang' kita, Jangan pernah 'menjual' Integritas hanya demi achievement sesaat. Tanpa Governance, kita mungkin 'kenyang' hari ini, tapi tanpa perlindungan di masa depan.

- Behavior (do) -

THE FUTABA MINDSET

“I don’t want to drag everyone down anymore. I want to be strong.”

- Futaba in determination

Don't Be the Weakest Link!

(Jangan jadi titik terlemah)

Di dalam tim, satu orang yang berhenti belajar akan memperlambat lari seluruh tim. Seperti Futaba, memiliki rasa malu jika hanya menjadi beban, dan miliki tekad baja untuk berlatih (upskilling) & kolaborasi.

Jadilah alasan timmu menang, bukan alasan timmu harus berhenti untuk menolongmu

- Impact -

THE SUSTAINABILITY

“They have only one goal: **to win kodoku**. Whether they move as a squad or fight alone, they will fight until the very end — Living by the sword, Dying by the sword.”

- The last samurai standing

Filosofi ‘*The Last Standing*’

Dengan menerapkan “**do behavior**” dan menghindari “**don’t behavior**” kita dapat menuju ke tujuan bersama dan memastikan bahwa Telkom bukan hanya sekadar survive hari ini, tapi tetap berdiri tegak sebagai ‘*The Last Market Leader Standing*’ di masa depan.

- 1. Alignment to EBIS Director's 6 Tones**

All units align with the 6 strategic tones in accordance with their roles and functions.

- 2. 2026 Strategy: Regional B2B Tactical Winning**

Focused regional tactics to win and grow the B2B market in 2026.

- 3. Critical Control of B2B Processes**

Consistent end-to-end control to ensure performance and compliance.

- 4. Governance, Risk & Compliance (GRC)**

Strengthening governance, risk management, and regulatory compliance.

- 5. People Development**

Building capabilities and leadership for sustainable growth.

AIRSTRIKE FORMATION 2026

AIRSTRIKE 2026 is a unified combat formation. The Leader sets the course, the wingman ensures stability, the element leader commands the battlefield, weapon instructors guarantee readiness, and strike fighters execute decisive wins.

1. Leader

The Leader defines the direction of flight and what victory looks like.

2. Wingman

A wingman does not replace the Leader, but ensures the Leader never flies alone.

3. Element Leader

The Element Leader turns strategy into battlefield victories.

4. Weapon Instructor / Leader Supporting

No airstrike is launched without reliable systems and trusted instructors.

5. Strike Fighter

Strike Fighters press the trigger, hit the target, and secure the win.

THANK YOU

Rachmad Dwi Hartanto
